

HOLLOW-CONE NOZZLES

A wide selection of hollow-cone nozzles is available covering a broad range of industrial applications.

Three basic types of hollow-cone nozzles are available:

- Turbulence nozzles -- off-line spray
- Turbulence nozzles -- in-line spray
- Impact nozzles -- in-line spray

The table below lists the available types, and gives information about their specific features, making it easier to identify a nozzle for a given application.

TURBULENCE NOZZLES, OFF-LINE SPRAY

TYPE	CONNECTION	FEATURES	APPLICATION
PA	Thread, F	Molded plastic	General purpose
PB	Thread, F		General purpose
PE/PF	Thread, M/F		General purpose
PN/PO	Thread, M/F		General purpose

TURBULENCE NOZZLES, IN-LINE SPRAY

TYPE	CONNECTION	FEATURES	APPLICATION
RB	Thread, M	Vaneless	Dust control
RX/RZ	Thread, M	Fine spray, low flow	Humidification

IMPACT NOZZLES, IN-LINE SPRAY

TYPE	CONNECTION	FEATURES	APPLICATION
RC	Thread, M	Extra-wide spray	Fire fighting
RD/RE	Thread, M/F	Wide spray	Fire fighting
